

**GIPSY : INTENSE INTERIOR EXPERIENCE**

A footstool. A sofa. An extension to lay down when sitting. And a coffee table if you feel like it. This multifunctional footstool fits every JORI interior and is equipped with a practical fold-out table. For those who want there is a bag for extra storage available.

**POCCI + DONDOLI : CITIZENS OF THE WORLD**

For Pocci+Dondoli design has to express beauty, harmony and freedom, as it can not be bound by strict established rules or exist as privilege of a social or cultural elite. The research on materials and processes, conceived to achieve maximum results in quality / price terms, is one of the main activities of the studio: they privilege materials that, through sophisticated processes, acquire nobility and elegance, such as aluminum and plastic, and other noble and antique materials like leather and hide.
